

The 1220 is just a size bigger than the 1080. With its four berths and the possibility for an extra bedroom a bit more a family ship. This double chute can be delivered both in rush and in mirror version (with or without aft cabin). Hull and superstructure are entirely in steel. Flooring of your choice in teak mahogany or cherry. Exterior door and steps of solid wood. We have little to say about the layout, which is carried out entirely according to your wishes! The ship is blasted outside and equipped with 2 components of paint system. The technical installation, a stainless steel railing and a mast complete the ship.

## Specification

Category	Motor yachts
Price range	Array
