

Steeler NG50 S

The Steeler NG 50 S is the latest version of the Steeler NG50. This CS (centre sleeper) model has been developed for owners who prefer a centre cabin to a master cabin in the fore section.

The result is a ship with (optional) 3 cabins and 3 wet cells. The pilothouse is longer than in the NG50, which creates a spacious lounge with an integrated galley. It goes without saying that the client has the freedom to choose the layout, and it is possible to opt for a kitchen and dinette in the fore section. The clearance of the Steeler NG 50 S is just 3.49m, so the French canals remain easily accessible.

Curious about the options?

You can view the various layouts and finishing materials to your heart's content at the 'under construction / delivered yachts' page on the Steeler Yachts company website.

Here you will find a comprehensive photo set of all the Steelers that have been delivered and are under construction.

Specification
