

Steeler NG57 S

The NG 57 S is being developed in consultation with a client planning to switch over from an NG50. The client's main wishes are more living space whilst retaining access to the current navigating area.

It has been decided to include 2 master bedrooms, each with its own shower and toilet and a guest room with two single beds. The living space is divided over 3 sections. A spacious open cockpit on the same level as the wheelhouse. The wheelhouse has a L-shaped lounge area, offering seating for 7 people. In the forward part of the vessel, which is connected directly with the wheelhouse, there is a spacious galley with a large U-shaped dining area facing it.

Curious about the options?
