

Van den Hoven Executive 1850

The all-new Executive 1850 is the logical extension of our 1700 series.

Both the exterior and interior have been designed by John van Leeuwen in cooperation with yacht designer Arnold de Ruyter. The curvaceous lines give the side view an even more stylish appearance. The 1850 is available both with and without a flybridge. The 1850 provides even more sailing comfort than the 1700, due not only to its length but also the fitting of stabilisers as standard. The underwater segment is already of course designed for high initial stability.
