

Venegy V30 Classic Cabin

Meet the newest member of our Venegy family, the V30 Classic Cabin. This brand new design combines comfort with style and performance and is the perfect tender for short stays on the water. It is powerful, easy to sail and built with high-quality materials. We are happy to add this tender to our fleet, that meets the wishes of every watersports-enthusiast.

Thanks to the Vinylester glass fiber reinforced hull, the construction of the boat is very rigid. This ensures good sailing characteristics and great reliability. This tender holds up excellently on rough water, ensuring quality for many years to come.

This ship is standard equipped with an 80 hp Vetus engine and can be equipped with a 145 hp, 175 hp or 190 hp Vetus engine. The V30 can reach a top speed of 25 knots.
