

Van den Hoven Voyager 61

The first Voyager 61 is here! This fast aluminium motoryacht with superyacht aspirations performed exceptionally well in all sea trials and is sailing even better than expected. The latest member of the Van den Hoven fleet is the result of many years of R&D and consultation with clients, synthesising the wealth of experience built up by the yard over the past 20 years.

“The Voyager 61 reflects a desire to sail farther and not to spend too much time travelling between destinations,” says Bart van den Hoven, general director of Van den Hoven Jachtbouw. “With a top speed of 22.5 knots, owners will be able to travel greater distances in less time, while still enjoying the typical Van der Hoven values of spaciousness, finish, comfort and performance.”

Specification

Material	Aluminium
Length	18-20
