

The Favorite 1700 model is in line with the popular Favorite 1500, where all the unique features of the previous Favorite yachts are merged. The layout of the distinctive yacht with recognizable retro lines is fully optimized with three spacious cabins, two bathrooms and a kitchen with a breakfast corner.

The glazed sliding door and electrically operating sliding window in the bright saloon with electrically opening sliding rooftop, provide access to the spacious aft deck where memorable moments with family and friends can be enjoyed. Special detail of this all-rounder: there is a tenderstorage in the stern for a three meter tender, to be launched with a tender slide. The Mulder Favorite 1700 has a beautiful round-bilged hull and will reach a maximum speed of 22 knots. The extra underwater spray rails and special sound and vibration insulation will increase the comfort on board. The 1700 is CE-A certified and has an electric folding mast for an air draft of 3.40 meters. The extremely efficient and stable Favorite 1700 is designed for the entire family and obviously provides the highest level of luxury and comfort. She serves as a perfect day-cruiser, but is also very suitable for longer voyages on inland-waters and open sea.

Specification

Material	Aluminium
Length	15-18
