

Privateer Silverline 1500 Trawler

Peerless enjoyment

Elegant lines, superior comfort and dynamic handling are the celebrated characteristics of the

Silverline Trawler. Travelling without a crew, your elegant CE-category A yacht will take you from the continental inland waterways to the Pacific, from the North Cape to the Caribbean.

Coast to coast

Not all owners wish to cross oceans of course. These Silverline sizes are ideal for a couple and two or four guests, cruising coastlines and mooring in the nicest harbours. While underway the spacious flybridge and excellent steering position offer lots of room to enjoy the scenery. An ingenious folding transom (with integrated davits for your tender) makes direct contact with the water and serves as a large swimming platform.

Dressed to impress

Below deck, your beautiful interior is sure to impress guests, while those who love smart technologies will be thrilled with your onboard systems and equipment. You don't have to be a techno-expert yourself as user-friendliness is to the fore of our design philosophy. The well balanced interior also offers privacy and comfort for everyone privileged enough to join you onboard.

Semi-custom build

The compact Silverline Super yachts are built, as far as possible, in accordance with your wishes using our well thought out design as a basis. With its top class engineering and finish it is guaranteed to be a unique motor yacht.

Specification

Lengte	12-15
Materiaal	Steel
Materiaal	Steel
Price range	Array
Category	Motor yachts
CE-markering	A
