

STEELER NG43

S

The S-line from Steeler Yachts stands for Space, Style, Speed, Seaworthiness, Safety and .. Superiority !

It is the beautiful NG design, taken to the next level : A beautiful new hull form with the patent-pending Steep High Flared Bow results in higher hull speed at lower diesel consumption. The sharp entry angle of the bow minimises bow wake to an absolute minimum, resulting in less resistance and less spraywater. The high position of the flared bow protects the vessel and his crew from taken water over the bow when in rough seas. The Steeler 43 S-line has the possibility for a twin engine propulsion.
