

The Centre Sleeper is equally at home in the North Sea as it is in the French canals and the Mediterranean Sea. With her soft, rounded shapes and curved lines, she is the embodiment of elegance. The round bilge hull design allows for very spacious owner's quarters in the middle of the ship.

The outstanding sailing qualities make the yacht highly suitable for those seeking the ultimate in sailing comfort. The fluid lines and rounded stern with its spacious swimming platform give the yacht a beautiful, exclusive look. This is a yacht that stands out in every harbour. If more space is required, the Sturier 555 CS is the yacht for you.
