

This is the first in a new series that combines a particularly spacious salon with the beautiful design and seaworthiness which we have come to expect from Sturiër Yachts.

The Sturiër 620 CS' innovative design ensures that an elegant wheelhouse / saloon can be matched with excellent sailing qualities. The low stern gives the ship stability and combines a sporty character with a chic, robust appearance: this ship's seaworthiness is clear for all to see.

This new concept brings the ultimate balance between inside space, outside living and a high level of comfort.

The Sturiër 620 CS features a great deal of space, high levels of craftsmanship and as few differences in floor level as possible. The wheelhouse, the airy and comfortable saloon, the luxury open kitchen and the practical dinette are all on one level, which ensures a very pleasant, spacious atmosphere. The extensive use of glass also gives the ship an overwhelmingly airy feel. The low freeboard lets everyone experience the feeling of gliding through the water - whether they are at the helm or relaxing in the saloon or on deck.

The use of level floors in the wheelhouse ensures that sightlines aft and sideways from the helm are particularly good.

The cabins are equipped with every conceivable luxury. No effort has been spared to ensure that life on board is as comfortable as possible. The yacht offers 3 spacious double cabins, each with its own bathroom. Below aft in the ship there is storage for bikes and other such items, plus a tender of 3.8m can be safely locked away in the garage below decks.

Max. height above waterline: 3.95m with mast lowered

## Specification

Lengte	18-20
Materiaal	Steel
Materiaal	Steel
Price range	Array
Category	Motor yachts
CE-markering	A
