

The Blue City is a typical pleasure yacht with a strong character and has a striking presence on the water that people take notice of whenever she sails by. Her sturdy appearance of a slider gives you the feeling of strength and reliability. Blue City models have the CE mark C, which makes them suitable even for coastal waters. And you will immediately notice the good sailing qualities of the ship.

Blue City is an easy ship to maneuver with its low air draft and imposes virtually no boating restrictions.

The ship offers more than just being able to tour on a beautiful summers day. Once it cools down in the evening there is a comfortable cabin where you and your guests can spend a pleasant evening.

Blue City models are well equipped both for day or weekend trips and for longer journeys. You decide, together with us, what the layout and equipment of the ship will be so that it is adapted for your use.

The innovative and efficient construction method we use in our shipyard means we can build the high-quality, classically lined Blue City at a very attractive price.
