

The Zeelander 7 was launched in March 2019 and is now the Zeelander flagship. With her platform extended she is 22 meters, making her the largest Zeelander ever.

The Zeelander in-house design team created the exterior of the yacht in collaboration with Cor D. Rover. An S-Shaped deck line, a wider stern and even more curved surfaces. The exterior design was inspired by the way Porsche has incrementally evolved its designs over time. A legendary icon is what we envision for the Zeelander 7.
