

Van den Hoven Executive 2400 Flybridge

Van den Hoven is making waves with our Executive series. We have already created the 1500 Mk2, 1700 Mk2, 1850 and the 2100 model, each recognisable by the distinctive Executive exterior design by Arnold de Ruyter. Now the first design has been used as the basis for an Executive 2400, the largest to date. As we enter the superyacht size range, different rules apply to this exciting project.

Comfort, sailing performance, living space and luxury are all at the high level that you would expect from a motoryacht this size. And, naturally, the yacht can be fully customised and fitted out to meet your personal wishes. With four cabins and three bathrooms being among the many options, the Executive 2400 is ideal for long trips up to eight people.

Despite the fact that Van den Hoven designs its yachts to be sailed and moored by just two people, there are plenty of owners who prefer to have a permanent captain and/or deckhand onboard. In such cases the layout can be adapted with a separate crew area featuring two beds, a bathroom with head and a seating area. Adding a separate entrance for optimal privacy for crew and owners alike is also an option.

Specification

Lengte	20-25
Materiaal	Steel
