

# Enksail Orion 49

The Enksail Orion not only has the appearance of a fast ship, and in fact she is. The hull is made entirely of aluminium. With a straight bow it is a modern ship. Because of the sporty hull shape, the ship has little displacement, which makes it easy to sail with less effort. Optionally, the ship can be equipped with a centreboard keel, creating a variable draught.

Our Enksails are semi-custom. This means that you can leave your mark in terms of styling and layout. The interior can be tailored to your wishes, adjusted to the number of people aboard and where you'll be sailing. As long as it fits inside the yacht, the possibilities are limitless. If you have an Enksail built with us, you are assured of a yacht of very good quality that will meet your personal wishes.

## Specification

<b>Genoa</b>	Genoa
<b>Lengte</b>	12-15
<b>Materiaal</b>	Aluminium
