

Van den Hoven Voyager 80

The largest Voyager to date is currently in development. This luxury yacht sees Van den Hoven stepping into the world of superyachts, where design, finish, comfort, materials and looks are of even greater importance.

The Voyager 80 is a comfortable seagoing motoryacht in which safety and a robust construction quality played a prominent role in the initial design. A true eye-catcher, the modern yet timeless design features a spacious interior that is suitable for long stays on board for up to eight people and two crew. The owner's and guest cabins all have an exclusive feel. The flybridge with plenty of comfortable seating, the aft deck with al fresco dining facilities and the swim platform ensure a wealth of outdoor space, while the foredeck has even more seating and luxury sun beds. The good life clearly beckons!

The Van den Hoven Voyager 80 is a concept, therefore not all information is included.

Specification

Lengte	20-25
Materiaal	Aluminium
