

The Intender 780 has elegant lines, is very complete as standard and is leading in comfort. The 200 cm wide and 50 cm deep swimming platform is very easily accessible through a door in the transom. The two consoles amidships are suitable as a refrigerator, sink with running water and/or various storage spaces. The flat floor has no steps, so you can walk forward very comfortably and without obstacles. A pump toilet can be placed in the enclosed space in the front. Due to the modern underwater hull, the Intender 780 has excellent sailing characteristics for both slow and optional fast sailing. Completely built on our own Dutch yard with a 10-year warranty.

With a width of no less than 280 cm by 780 cm length, it is a spacial miracle where 10 people on board can find a comfortable seat. In addition to the spacious front and rear seats, this tender has a closed toilet room in the bow. In combination with the many storage spaces and the 2 center consoles, it offers a lot of comfort. The engine box consists of one whole, so that the refrigerator is freely accessible and there is a lot of free walking space, even 50 cm along the engine box! The cockpit floor is completely flat, to prevent missteps.

A novelty is the wide door in the transom that leads you comfortably to the huge swimming platform at the back. Economical diesel engines from 27 to a fantastic 170 hp ensure that the Intender 780 can reach a maximum speed of 47 knots. In short, an all-rounder brimming with comfort.
