

Intender 950 Cabin

The new Interboat Intender 950 Cabin is a balanced mix between a tender and a cruiser. The result is a sporty elegant crossover with a surprising amount of outdoor space for the day and on top of that a pleasant full-option cabin (two berths) for the night.

What catches the eye most is the outdoor area with a very large sun bed centrally on the longitudinal axis, the large L-shaped sofa with six 'adult' seats and a luxurious outdoor bar with cooling, sink and cooking facilities.

The largest tender in the Interboat fleet has a steering position with helmsman's seat, which can be placed centrally in the back or behind the windshield on the starboard side, if desired. The cabin has a full-fledged wet cell, including flush toilet and sink. Those who stay on board will have access to a comfortable double bed and plenty of storage space. The motorization ranges from 65 to 320hp inboard diesel with a maximum speed of approximately 45 knots.

Completely built by hand at our own Dutch yard with a 10-year hull warranty.

The cabin has 2 spacious berths with comfort mattresses and a full-fledged wet cell including flush toilet and sink. You can take more than enough luggage with you for longer trips in the large storage spaces. The interior is finished with a choice of teak, walnut or whitewash oak.

Characteristic of the Intender 950 is the very spacious cockpit with 3-person sunbed centrally on the longitudinal axis. The large L-shaped sofa offers comfortable seating for 6 adults. The very wide bathing platform is easily accessible through a passage along the sun bed. Due to the low superstructure, the helmsman has a completely unobstructed view forward and can sail seated. The helmsman's position can be placed centrally at the rear, as is usual with sloops and tenders, or pleasantly sheltered behind the windshield on the starboard side. To optimize the outdoor experience, the Intender 950 has a luxurious outdoor bar with 80 liters of cooling, sink and 2 burner induction hob.
