

Langweerder Sloep 7.50 Cabin

The Langweerder Sloep was originally a lifeboat, designed for the Baltic Sea. Due to this history, the Langweerder Sloep represents reliability and stability. Moreover, the sloep is easy to handle and very comfortable.

The Langweerder Sloep 7.50 Cabin has the same standard design as the Langweerder Sloep 7.50 Classic, but is extended with an elegantly built cabin. This creates a spacious sleeping area. Furthermore, a raised cushion for the skipper, 4 portholes and 2 reading lights are standard. Optionally, you can choose a swimming platform with swimming ladder or a bow thruster.

Specification

Lengte	< 10
Materiaal	Polyester

Langweerder Sloep B.V.
