

# Langweerder Sloep 8.50 Classic

The Langweerder Sloep was originally a lifeboat, designed for the Baltic Sea. Due to this history, the Langweerder Sloep represents reliability and stability. Moreover, the sloop is easy to handle and very comfortable.

The Langweerder Sloep 8.50 Classic is the big brother of the other Langweerder Sloepen. Because of its large spacious layout, this sloop offers seating for 12 people and beds for 4 persons. In addition, a lovely sun deck can be made in the front of the sloop. The basic equipment includes: a spray hood with raised rear tent (which can easily be folded down), a 28 hp 3 cylinder Volvo Penta engine, a swimming platform with swimming ladder, a built-in 2-burner stove, sink and water tank.

## Specification

Material	Polyester
Length	< 10
